01 Summary of Financial Results for FY 3/25 Q3

02 **FY 3/25 Consolidated Financial Forecasts**

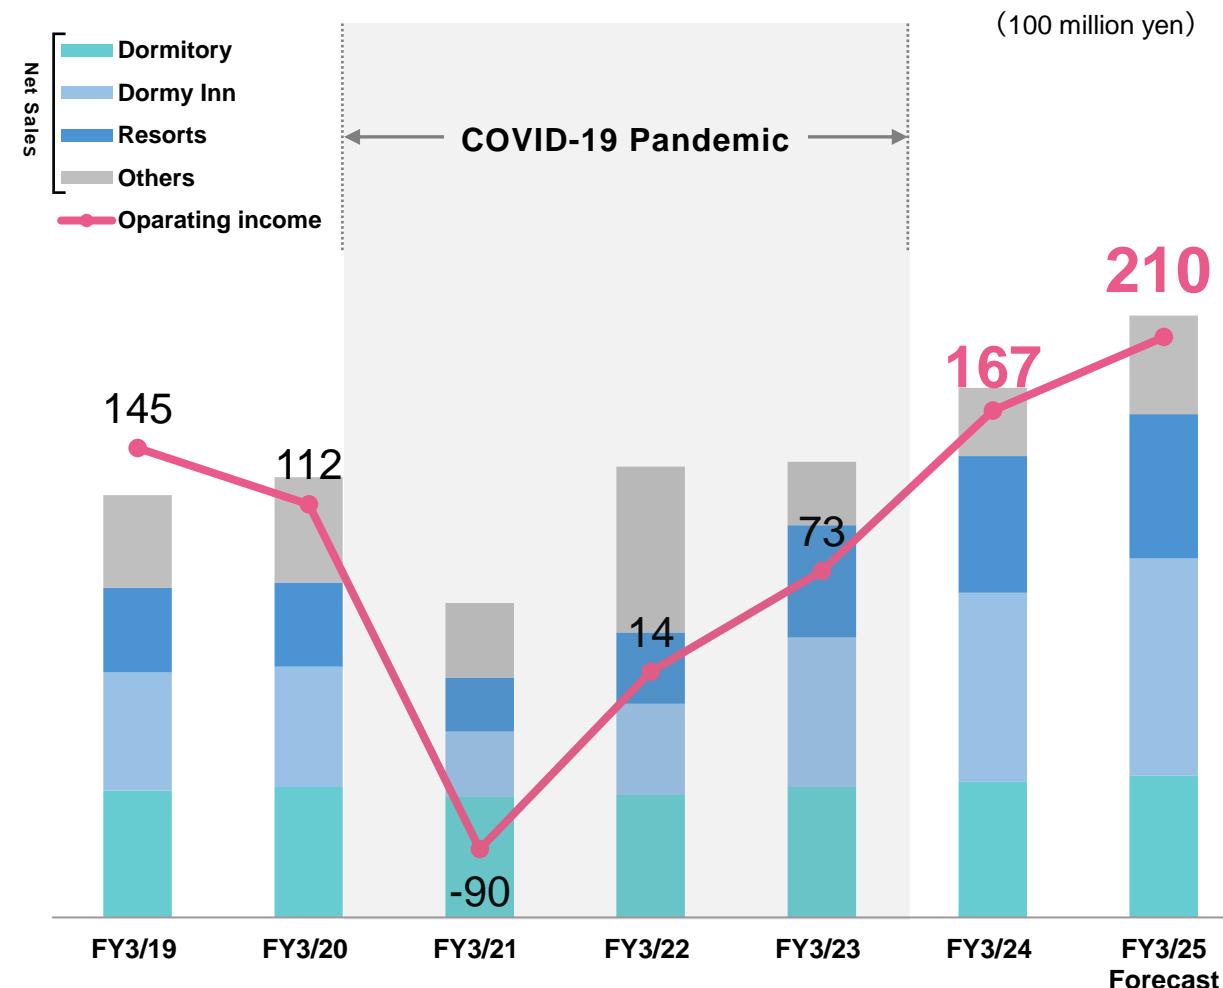

Upward revisions due to marked strength in the Hotel Business, which is progressing at a pace one year ahead of the Medium-Term Management Plan

Dormitory Business

- High level of occupancy is to be maintained, with an occupancy rate at the beginning of the period of 97.0%.
- We are targeting higher sales and income based on the expected sales from newly opened facilities, as well as through efforts to set more appropriate prices, and seek to restore prices to pre-COVID levels.

Hotel Business

- **Forecast revised upward due to clear strong trend** resulting from the continued implementation of rigorous revenue management through dynamic pricing, capitalizing on improvements in the business environment driven by the growth in domestic and inbound demand
- While the fiscal year ending March 2025 will suffer the effects of restraint on new openings under development adjustments related to COVID-19, the pace of new openings is set to return to that as given in the Medium-Term Management Plan in the next fiscal year (ending March 2026) and later.
