## 1. Overview of Operating Results, etc.

### (1) Overview of Operating Results During The Period Under Review

During the nine months ended December 31, 2025, backed by improvements in employment and income, the Japanese economy continued to show signs of gradual recovery. Nevertheless, given concerns such as slow personal consumption attributable to rising prices, US trade policies, and geopolitical risks, the economic outlook remained uncertain.

Under these conditions, despite the impact of rising prices, the Group fared well due to growing demand for lodging generated by the 2025 Japan World Exposition (Expo 2025 Osaka, Kansai) and Japan's continued high popularity as a tourist destination.

In particular, the number of foreign visitors to Japan exceeded 42 million on an annual basis—a record high (source: "Visitor Arrivals to Japan," Japan National Tourism Organization).

As a result, the Group recorded record-high earnings for the third quarter for the second fiscal year in a row, with net sales of 182,573 million yen (up 7.1% YoY); operating profit of 19,007 million yen (up 6.6% YoY); ordinary profit of 19,507 million yen (up 5.8% YoY); and profit attributable to owners of parent of 14,303 million yen (up 12.2% YoY) for the three quarters of the current consolidated fiscal year.

Segment business performance is reviewed below.

#### (i) Dormitory Business

In its Dormitory Business, the Company opened 12 new facilities nationwide in April, adding 1,364 rooms, and started operations with an occupancy rate of 97.4% (up 0.4 points YoY) at the beginning of the fiscal year. As part of the growth strategy to achieve the goals of our medium-term management plan, we continued to open new facilities in major metropolitan areas such as the Tokyo and Kansai regions, while also expanding into previously untapped areas, including Okayama, Takamatsu, and Tokushima, in order to establish a structure to respond flexibly to a wide range of customer needs, and opened the Chushikoku Branch in Okayama to strengthen our marketing structure. As the number of contracts increased through new partnership agreements with schools and solid responses to replacement demand from employer-operated dormitories as well as increased corporate hiring, the Company worked to optimize selling prices to address rising operating costs.

As a result, net sales amounted to 42,593 million yen (up 5.8% YoY) and operating profit was 4,127 million yen (up 2.2% YoY), absorbing rising operating, opening, and other costs.

#### (ii) Hotel Business

In the Hotel Business, during the period under review, we opened Natural Hotsprings Wakasa no Yu Dormy Inn Tsuruga, Natural Hotsprings Mitoya no Yu Dormy Inn EXPRESS Izumo no Kuni Unnan, and Natural Hotsprings Higo no Yu Onyado Nono Kumamoto.

Given continuing favorable market conditions, including booming domestic demand and record numbers of foreign visitors, the Company maintained high occupancy rates and unit prices by accurately capturing customer needs while pursuing aggressive sales efforts and rigorous revenue management (to optimize selling prices). In addition, the Company continued to promote improved customer convenience and enhanced labor productivity by acquiring more members for its Shiki Club corporate membership program and Dormy's membership app for individual users, and by expanding the introduction of its Express Check-In smart check-in system, which allows guests to skip front desk procedures.

These measures enabled us to manage costs arising from temporary closures and construction work related to large-scale renovations to improve customer satisfaction, rising food ingredient prices, linen cleaning expenses, and other operating costs, as well as the impact of political issues between Japan and China. As a result, this business recorded net sales of 113,623 million yen (up 7.2% YoY) and operating profit of 18,433 million yen (up 10.7% YoY).

#### (iii) Contracted Service Business

In the Contracted Service Business, despite strong performance in facility management, cleaning, and other projects, sales declined due to a decrease resulting from fewer large-scale renovation projects compared with the previous fiscal year, as well as higher labor costs, and other factors. This business recorded net sales of 14,710 million yen (down 10.3% YoY) and an operating loss of 115 million yen (vs. operating profit of 438 million yen for the same period of the previous fiscal year).

#### (iv) Food Service Business

In the Food Service Business, various factors, including growing numbers of contracted hotel restaurants, resulted in net sales of 10,516 million yen (up 11.5% YoY) and operating profit of 450 million yen (up 100.5% YoY).

(v) Construction Business

In the Construction Business, the growing numbers of real estate securitization and development projects boosted net sales to 6,795 million yen (up 42.0% YoY) and operating profit to 528 million yen (up 289.7% YoY).

(vi) Other Businesses

Other Businesses consist of the Senior Life Business (management and operation of senior residences); the Public Kyoritsu Partnership (PKP) Business (services provided under contract to local governments); the support business for people who live alone; the insurance agency business; comprehensive human-resource services; the financial business; and the administrative outsourcing business. Total net sales recorded by these businesses rose to 14,669 million yen (up 9.5% YoY). Overall, due to the impact of higher opening costs in the Senior Life Business and other factors, these businesses recorded an operating loss of 240 million yen (vs. operating profit of 14 million yen for the same period of the previous fiscal year).

(2) Overview of Financial Position During The Period Under Review

(Assets)

Total assets at the end of the third quarter of this consolidated fiscal year stood at 323,620 million yen, an increase of 22,150 million yen from the end of the previous consolidated fiscal year. Major factors behind this increase included an increase in real estate for sale.

(Liabilities)

Total liabilities at the end of the third quarter of this consolidated fiscal year stood at 190,330 million yen, a decrease of 11,778 million yen from the end of the previous consolidated fiscal year. Major factors behind this decrease included a decrease in convertible bonds with stock options planned for redemption within one year and a decrease in other current liabilities (advances received).

(Net assets)

Net assets at the end of the third quarter of this consolidated fiscal year stood at 133,290 million yen, up 33,929 million yen from the end of the previous consolidated fiscal year, due mainly to growth in share capital, capital surplus, and retained earnings.

As a result, the equity ratio was 41.2%, up 8.2 percentage points from the end of the previous consolidated fiscal year.

(3) Explanation of Forecasts of Consolidated Results and Other Forward-Looking Information

We have left our forecasts of consolidated financial results, announced on May 15, 2025, unchanged.

(3) Notes on Quarterly Consolidated Financial Statements

(Notes on The Going Concern Assumption)

Not applicable

(Notes Concerning Any Notable Changes in Shareholders' Equity)

Nine Months Ended December 31, 2024 (from April 1, 2024 to December 31, 2024)

Not applicable

Nine Months Ended December 31, 2025 (from April 1, 2025 to December 31, 2025)

During the nine months ended December 31, 2025, share capital increased by 11,269 million yen and capital surplus increased by 11,260 million yen due to the stock option exercise. As a result, share capital stood at 19,234 million yen and capital surplus was 24,390 million yen as of December 31, 2025.

(Notes on Special Accounting Procedures in The Preparation of Quarterly Consolidated Financial Statements)

(Calculation of tax expenses)

The Company calculates tax expenses by rationally assuming an effective tax rate after applying tax effect accounting to income (loss) before income taxes for the consolidated fiscal year, including the nine months of the fiscal year, and multiplying income (loss) before income taxes for the nine months of the fiscal year by the estimated effective tax rate. However, if the result of calculation of tax expenses using the estimated effective tax rate is significantly unreasonable, the statutory effective tax rate is used.

(Notes on Changes in Accounting Policies)

Not applicable

(Quarterly Consolidated Statement of Cash Flows)

No Quarterly Consolidated Statement of Cash Flows for the nine-month period under review has been prepared. Depreciation (including amortization related to intangible assets other than goodwill) and amortization of goodwill for the nine months under review are as follows:

	Nine months ended December 31, 2024	Nine months ended December 31, 2025
Depreciation	5,597 million yen	6,613 million yen

(Notes on Segment Information)

[Segment information]

I For the nine months ended December 31, 2024 (April 1, 2024 – December 31, 2024)

1. Information on net sales and operating profit or loss by each reporting segment

(Millions of yen)

	Reportable segments						Other	Total	Reconciling items	Per quarterly consolidated financial statements
	Dormitories	Hotels	Contracted Services	Food Services	Construction	Reportable segments				
Sales										
Revenues from external customers	39,999	105,787	6,067	1,492	4,215	157,562	12,880	170,442	—	170,442
Transactions with other segments	264	188	10,341	7,938	568	19,300	518	19,818	(19,818)	—
Net sales	40,263	105,975	16,408	9,431	4,783	176,862	13,398	190,261	(19,818)	170,442
